

QCD prospects for future ep and eA colliders

lundi 4 juin 2012 - vendredi 8 juin 2012

LPT Orsay

Programme Scientifique

Program :

 Main lectures :

 - **Alfred Mueller**, Columbia University, New York (USA)

 High energy e-p and e-A scattering

 - **Piet Mulders**, Vrije Universiteit, Amsterdam (Nederlands)

 TMDs: theory and phenomenology

 - **George Sterman**, Stony Brook University, Stony Brook (USA)

 Factorization of hard processes

Marc Vanderhaeghen, J. Gutenberg Universität, Mainz (Germany)

 GPDs and spatial structure of hadrons

 Seminars :

- **Leandro Almeida**, IPhT, Saclay

Nestor Armesto, Santiago de Compostela Universidad (Spain)

- **Franck Sabatié**, SPhN, Saclay
