

Europhysics Conference on High-Energy Physics 2011

vendredi 22 juillet 2011

Cosmology and Gravity - Berlioz (09:00 - 10:30)

time [id]	title	presenter
09:00	[812] Dark Energy and Modified Gravity	Dr BRAX, Philippe
09:45	[849] Supernova Legacy Survey 3-years data sample	Dr HARDIN, Delphine

Cosmology and Gravity - Berlioz (11:00 - 13:00)

time [id]	title	presenter
11:00	[820] The Lyman-alpha forest in three dimensions with BOSS	Dr YECHE, Christophe
11:45	[830] The WiggleZ Galaxy Survey shows that dark energy is real	Prof. DRINKWATER, Michael
12:30	[240] The GRANIT project: status and perspectives	Dr REBREYEND, Dominique

Cosmology and Gravity - Berlioz (14:30 - 16:00)

time [id]	title	presenter
14:30	[819] CMB Power Spectrum Results from the South Pole Telescope	Dr REICHARDT, Christian
15:15	[801] The thermal Sunyaev-Zel'dovich effect with PLANCK	HURIER, Guillaume
15:35	[811] Semi-analytical computation of the non-linear matter power spectrum	AUDREN, Benjamin

Cosmology and Gravity - Berlioz (16:30 - 18:30)

time [id]	title	presenter
16:30	[789] Gravitational Energy in Massive Gravity	Dr PILO, Luigi
16:50	[215] Leptogenesis in neutrinoophilic Higgs doublet models	Dr SETO, Osamu
17:10	[522] Loop Quantum Cosmology	BARRAU, Aurélien
17:30	[15] Probing dark energy with the Large Synoptic Survey Telescope (LSST).	Mlle GORECKI, alexia
17:50	[277] The Dark Energy Survey	SEVILLA, Ignacio
18:10	[800] Evidence for a new variability in Type Ia Supernovae from The Nearby Supernovae Factory	CHOTARD, nicolas
