

Session Program

12-14 nov. 2014

**TTC Topical Workshop on SRF Cryomodule Clean Room
Assembly**

Session 11

CEA Saclay, Room A. Berthelot - Building 141
91400 Gif sur Yvette France

ven. 14 novembre

11:00

Session 11: Experience with cavity gradient degradation in cryomodule tests

Session | Site: CEA Saclay, Room A. Berthelot - Building 141, 91400 Gif sur Yvette France | Convener: Dr Olivier Napoly

11:00 - 11:15

Measurement results of cavity gradient degradation of cERL main linac cryomodule under long beam operation

Orateur
Hiroshi SAKAI

11:15 - 11:35

Study on He processing and HPR for recovery from field emission

Orateur
Kensai UMEMORI

11:35 - 11:50

Preparation procedure and RF conditioning of cERL main linac power coupler

Orateur
Hiroshi SAKAI

11:50 - 12:30

Open discussion

Orateur
