

**Session Program**

12-14 nov. 2014

**TTC Topical Workshop on SRF Cryomodule Clean Room  
Assembly**

***Experience with cavity gradient degradation in cryomodule  
tests***

CEA Saclay, Room A. Berthelot - Building 141  
91400 Gif sur Yvette France

**ven. 14 novembre**

09:00

**Experience with cavity gradient degradation in cryomodule tests**

Session | Site: CEA Saclay, Room A. Berthelot - Building 141, 91400 Gif sur Yvette France | Convener: Camille GINSBURG

**09:00 – 09:15 Cavity gradient degradation in Cryomodule tests in KEK/STF****Orateur**

Yasuchika YAMAMOTO

**09:15 – 09:35 RF as a cleaning tool****Orateur**

Mircea STIRBET

**09:35 – 09:55 Upgrade of the superconducting RF cavities at soleil****Orateur**

M. KEIHAN TAVAKOLI

**09:55 – 10:10****Qualification of procedure and cavity protection during warm section assembly to Spiral2 cryomodule****Orateur**

Dr Guillaume Olry

**10:10 – 10:30 Cavity gradient degradation in XFEL cryomodule tests****Orateur**

Denis KOSTIN

10:30
