

# AGATA Collaboration meeting 2015

## jeudi 12 février 2015

### Session4: NEDA proposals - GuestHouse (11:20 - 13:00)

time	[id] title	presenter
11:20	[25] Effects of Isospin Symmetry Breaking in the A=63 mirror nuclei	LENZI, S.
11:40	[22] Coulomb energy differences and the role of the isospin non conserving term in the g9/2 shell: Excited states in the Tz=-1/2 nucleus 75Sr	DE ANGELIS, G.
12:00	[23] Mirror Energy Differences in T=1/2 pairs at the Valence Maximum in the pfg-Shell: the 77Y case	GADEA, A.
12:20	[21] Search for isoscalar pairing in the N=Z nuclei 84Mo and 88Ru	CEDERWALL, B.
12:40	[24] Direct measurement of proton-neutron matrix elements with respect to the 100Sn core by studying excited states in 100In	PALACZ, M.
