# Light !

European Summer School in physics  
For students having completed at least 3 years of university studies

An introduction to some of the amazing  
properties of light, and their use.

**Topics :**

- ★ Properties of light in the quantum world and in the large scale universe.
- ★ Light as a messenger : Nobel Prize winning techniques for microscopy, what spectra and polarization tell us about stars, how to explore matter with ultrafast lasers...
- ★ The interactions between light and matter : atmospheric phenomena, how to manipulate light with plasmons, Nobel Prize winning LEDs...
