

Session Program

9 mars 2015

**E-GRAAL (Earthquake GRAvity ALerts) kick-off meeting
APC laboratory**

***Transient gravity signals from earthquakes: computation and
data analysis (II)***

APC, 483A Malevitch
10 rue Alice Domon et Leonie Duquet 75013 Paris

lun. 9 mars

16:30
18:00

Transient gravity signals from earthquakes: computation and data analysis (II)

Session | Site: APC, 483A Malevitch, 10 rue Alice Domon et Leonie Duquet 75013 Paris

16:30 – 17:30 Search for a transient gravity signal from the Tohoku 2011 earthquake

Orateur
J.-P.Montagner and K.JUhel (IPGP)

17:30 – 18:00 Open problems and ideas on data analysis with gravity detectors

Orateur
Eric Chassande-Mottin (APC)
