

LIO international conference on Flavour, Composite models and Dark matter

mercredi 25 novembre 2015

Flavour/Composite plenary - Amphi Dirac (09:00 - 18:00)

time	[id] title	presenter
09:00	[1] Theoretical Predictions for the Weak Radiative B-Meson Decays	MISIAK, Mikolaj
09:45	[41] Status of flavour physics and implications for new physics	HURTH, Tobias
10:30	Coffee break	
11:00	[2] Theoretical description of LHCb anomalies and global fits	Prof. MATIAS, Joaquim
11:45	[39] Dark Matter from muon anomalies	Dr DELAUNAY, Cedric
13:00	Lunch break	
14:00	[3] Partial compositeness, UV completions and ALPs	Prof. FERRETTI, Gabriele
14:45	[4] The Elementary Goldstone Higgs	Mme GERTOV, Helene
15:30	[8] Constraining composite Higgs models with direct and indirect searches	NIEHOFF, Christoph
16:00	Coffee break	
16:30	[5] The Quantum Critical Higgs	Prof. LEE, Seung J.
