

iRODS workshop @ CC-IN2P3

lundi 2 février 2009 - jeudi 5 février 2009

CC-IN2P3

Programme Scientifique

The workshop will include a day where various projects will have the opportunity to present their applications which are using iRODS or their plans to use it. It will be followed by a two days tutorial and a day dedicated to parallel sessions focused on specific needs related to iRODS for various communities. Provisional communities include: astrophysics, arts and humanities, preservation environments, medical records.
