COMPUTING

- 3250 HS06 per day (5% of SDC capacity)
 - 200 slots
 - 1 core / 2-3 GiB RAM per slot
 - May arrange for peaks
 - SL6 (CentOS 7 may be provided with docker or VMs)

- TGV discussion:
 - Me: How many images would you be able to simulate per month?
 - Nadia / Santi: It depends on the image, between 0 and infinite.
