

GDR Terascale@Nantes

lundi 23 mai 2016

Session: Welcome - Amphitheater Charpak & Kastler (14:00 - 14:15)

Session - Amphitheater Charpak & Kastler (14:15 - 18:00)

time	[id] title	presenter
14:15	[18] Latest developments in Monte Carlo simulations	MAWATARI, Kentarou
14:40	[19] SModelS and the applicability of Simplified model results to scenarios with different spin structure	LAA, Ursula
15:05	Coffee break	
15:35	[20] Higgs calculations with CP violation @2 loops	GOODSELL, Mark
16:00	[21] Translating EFT operator basis with Rosetta	M. MIMASU, Ken
16:25	[22] Theoretical uncertainty of the supersymmetric dark matter relic density from scheme and scale variations	Dr HARZ, Julia
16:50	[17] b-tagging techniques in CMS	COLLARD, Caroline
