

LIO international conference on Composite Models, Electroweak Physics and the LHC

lundi 5 septembre 2016

Higgs physics and results - Amphi Dirac (14:00 - 16:00)

time [id]	title	presenter
14:00	[46] Higgs boson from a soft wall geometry	Dr PAROLINI, Alberto
14:45	[45] Observation of a Higgs boson at 125 GeV and search for an additional low-mass Higgs boson in the diphoton channel in CMS	M. COURBON, Benoit
15:15	[47] Search for a lighter Higgs in Two Higgs Doublet Model	Mme LE CORRE, Solène

Higgs physics and results - Amphi Dirac (16:30 - 18:00)

time [id]	title	presenter
16:30	[48] Higgs particle signal at the LHC from the gauged Unparticles Model	Prof. MEBARKI, Noureddine
