

Academic Positions

Principle Investigator	2014-present
School of Physics and Center for Quantitative Biology, Peking University, China	
Postdoc research associate	2013-2014
Department of Physics, Duke University, USA	
Postdoc research associate	2009-2013
Department of Physics, Princeton University, USA	

Education

Ph.D. in Biophysics and Computational Biology, University of Illinois at Urbana-Champaign, USA, 2009

M.A. in Physics, University of Pittsburgh, USA, 2004

M.E. in Nuclear Engineering, Peking University, China, 2001

B.S. in Physics, Shandong University, China, 1998

Wen Q, Yan D, F. Liu *, et al. "Highly selective ionic transport through subnanometer pores in polymer films". *Advanced Functional Materials* , 2016, 26(32): 5796-5803
