

27th International Conference on Nuclear Tracks and Radiation Measurements (ICNTRM 2017)

vendredi 1 septembre 2017

Session 15: Astro and nuclear physics (08:30 - 10:40)

time	[id] title	presenter
08:30	[74] Plenary conference 5: Resolved and open questions in heavy ion physics at LHC : the ALICE perspective	SCHUTZ, Y.
09:20	[75] Invited talk 9: Very High Energy Gamma-ray astronomy with Cherenkov Telescopes	FONT, L.
10:00	[76] Determination of number and diameter of superheated droplets in bubble detectors (BD) of type T-12 by irradiation with high-energy heavy ions ^{56}Fe , ^{84}Kr and ^{132}Xe at accelerator	GUO, S.L.
10:20	[77] Dissociation of light relativistic nuclei in nuclear track emulsion (some highlights and prospects)	ZARUBIN, P.
