

27th International Conference on Nuclear Tracks and Radiation Measurements (ICNTRM 2017)

mercredi 30 août 2017

Parallel Session 10.1: Nanotechnologies and material modifications - Hall 1, Institut Le Bel (11:10 - 12:30)

time	[id] title	presenter
11:10	[47] Current-voltage characterization of gamma radiation induced graphene oxide	CHINNASAMY, G.
11:30	[48] Silver ion irradiation effects on selenium nanowires	PANCHAL, S.
11:50	[50] A new method for determination Solid State Nuclear Track by the change of the specific heat capacity	LU, J.
12:10	[49] Characterization of new generation silicon detector: SIRIUS tunnel "Stripy-Pad" detector	BRIONNET, P.
