

# 27th International Conference on Nuclear Tracks and Radiation Measurements (ICNTRM 2017)

## lundi 28 août 2017

### Session 3: Nanotechnologies and material modification - Amphi 3 (14:00 - 15:40)

time	[id] title	presenter
14:00	[6] Invited talk 2: Materials modification and nanostructures produced with GeV heavy ions	TRAUTMAN, C.
14:40	[7] Lithium Negative Ion Implantation of CdSe Nanowires: Structural, Optical and Electrical properties	CHAUHAN, R.P.
15:00	[8] Two-component Nanowires: fabrication using etched-track-matrix deposition and investigation of magnetic properties	ZAGORSKIY, D.
15:20	[9] UV C light radiation effect on nuclear tracks of different ions in polycarbonate	SAINT MARTIN, G.
