

27th International Conference on Nuclear Tracks and Radiation Measurements (ICNTRM 2017)

lundi 28 août 2017

Session 2: Environment and detectors - Amphi 3 (10:50 - 12:30)

time	[id] title	presenter
10:50	[2] Invited talk 1: New regulations on protection from radon exposure and related needs about radon concentration measurements	BOCHICCHIO, F.
11:30	[3] No-destructive analysis of "hot" particles	VLASOVA, I.
11:50	[4] Type testing of LiF:Mg,Cu,P personal dosimeters for the assessment of Hp(10) and Hp(0.07)	PEREIRA, J.
12:10	[5] Latest advances in fluorescent nuclear track detector technology and instrumentation	AKSELROD, M.
