

GDR QCD 2016

mercredi 9 novembre 2016

Session 3: Prospectives sur les observables de l'interaction forte - Auditorium Joliot-Curie (09:00 - 13:00)

-Présidents de session: Cynthia Hadjidakis; Cyrille Marquet; Beatrice Ramstein

time	[id] title	presenter
09:30	[0] Future measurements with HADES and CBM at FAIR	GALATYUK, Tetyana
10:00	[3] AFTER@LHC, A Fixed TargetExperiment for hadron, heavy-ion and spin physics	Mlle MASSACRIER, Laure
10:30	Coffee break	
11:00	[4] A HERMES-type Gas Target, Internal to the LHC for the Study of pp Single-spin and Heavy Ion Collisions	NASS, Alexander
11:30	[6] Challenges for precision QCD at the LHC	RE, Emanuele
12:00	[7] Polarized 3-parton production in future DIS experiments at small-x	JALILIAN-MARIAN, Jamal
12:30	[35] Discussion générale GDR	Dr WALLON, Samuel
