

GDR QCD 2016

jeudi 10 novembre 2016

Session 6: Physique de la saturation et effets collectifs dans les nucléons et noyaux - Auditorium Joliot-Curie (14:30 - 18:00)

-Présidents de session: Francois Gelis; Franck Sabatié; Ingo Schienbein

time	[id] title	presenter
14:30	[36] Saturation phenomenology: selected results in p+p, p+A and A+A collisions	Dr MARQUET, Cyrille
15:00	[37] Evolution and factorization in high-energy QCD beyond leading order	IANCU, Edmond
15:30	[38] Perturbative aspects of the QCD phase diagram	M. REINOSA, Urko
16:00	Coffee break	
16:30	[39] Uncovering BFKL dynamics in production of Mueller-Navelet jets at the LHC	Prof. SZYMANOWSKI, Lech
17:00	[40] From DIS to pA at small x: azimuthal angular correlations	JALILIAN-MARIAN, Jamal
