

# 17th AGATA week and 1st Position Sensitive Germanium Detectors and Application Workshop

## mardi 4 octobre 2016

**PSeGe: Demonstration of imaging applications and associated detector technologies - Amphithéâtre Irène Joliot-Curie**  
**(14:00 - 15:30)**

-Présidents de session: Coordinated by University of Liverpool

time	[id] title	presenter
14:00	[102] Imaging with highly segmented, position-sensitive HPGe Detectors- the Cologne Compton Camera	STEINBACH, Tim
14:30	[108] Imaging of prompt gamma emissions during proton cancer therapy for geometric and dosimetric verification	LECROI, Benjamin
14:50	[109] Activity quantification of <sup>137</sup> Cs point sources using the ProSPECTus Compton camera	WOODROOF, Tom
15:10	[110] Characterisation of a CZT Detector for Dosimetry in Molecular Radiotherapy	MXAREAVEY, Lucy
