Hyper Suprime-Cam Subaru Strategic Program

Tuesday, 13 June 2017 14:00 (45 minutes)

HSC-SSP is a 3-layered imaging survey aimed at addressing major astrophysical questions such as the nature of dark matter and dark energy. The HSC data have been processed with a version of the LSST stack and a number of scientific papers have been published. I will give an overview of the survey and its first public data release.

Topic:

LSST stack beyond LSST

Presenter: Dr TANAKA, Masayuki (NAOJ)

Session Classification: Workshop
