Dark Energy Survey - Status, Science, and Algorithmic Advancements

Wednesday, 14 June 2017 14:00 (35 minutes)

I will review the status of the Dark Energy survey, give an outlook on the upcoming results from its weak-lensing program, and describe several of the algorithmic advancements that enable high-precision measurements from ground-based imaging.

Topic:

Large photometric surveys

Presenter: Mr MELCHIOR, Peter (Princeton University)

Session Classification: Workshop
