## LSST DM stack image differencing on CFHT images

*Wednesday, 14 June 2017 11:00 (30 minutes)*

In an introduction part, I will present the basics of the implementation of image differencing with the LSST DM stack.

Then I will present some preliminary results obtained by running this software on a subset of the CFHTLS Deep Fields images and some comparisons using the published supernova data of the SNLS collaboration.

**Presenter:** Mr FOUCHÉZ, Dominique (CPPM)

**Session Classification:** Workshop
