

Geant4 Tutorial and International Multidisciplinary User Workshop

vendredi 16 juin 2017

Session 2 (11:00 - 12:30)

time	[id] title	presenter
11:00	[8] Integration and validation of the new Geant4-DNA physics models into the GATE simulation platform	Mlle NGUYEN THI MAI, Huong
11:30	[5] Comparison of number SSB and DSB of DNA irradiated by FF and FFF photon beams (TrueBeam) by using Monte-Carlo Simulation	M. PHAM, Hong Lam
12:00	[4] Development of a compact thermal neutron source based on high-intensity proton beams of energy less than 20 MeV	Dr TRAN, Ngoc Hoang
