

# Current Trends in Flavor Physics

## vendredi 31 mars 2017

### Leptons - Amphi Hermite (11:15 - 13:00)

time	[id] title	presenter
11:15	[28] Theory status of the muon $g-2$	Dr NYFFELER, Andreas
11:45	[29] Experimental status of the muon ( $g-2$ ) and of the lepton flavor violating decay modes	Dr VENANZONI, Graziano
12:15	[31] Charged Lepton Flavour Violation in effective field theories with dimension 6 operators	Dr PRUNA, Giovanni Marco
12:35	[44] New limit on heavy neutral lepton from NA62	Dr MIRRA, Marco
