Workshop on Gravitational Waves and High Energy Neutrinos

mardi 19 mai 2009

GRBs from the observation prospective and implication for GWHEN searches (09:00 - 12:30)

time	[id] title	presenter
09:00	[10] Gamma-Ray Burst Follow-Up: Lessons and Prospects	Dr FOX, Derek
09:30	[38] Gamma-Ray Burst Observations with Fermi	M. PIRON, Frederic
10:00	[54] Highlights by the Swift Mission in the context of multi-messenger astronomy	Prof. CHINCARINI, Guido
10:30	break	
10:45	[43] Gamma-Ray Bursts with the ANTARES neutrino telescope	Dr ESCOFFIER, Stephanie
11:15	[49] Gravitational Waves from Short Gamma Ray Bursts	Dr GUETTA, dafne
11:45	[5] Discussion
