To: the participants
Subject: Dinner for "Dissecting the LHC Results"

Dear Colleagues,

Tomorrow we will book the restaurant for the workshop dinner, which will take place on Thursday 20 April around 8pm. Past experience shows that a significant fraction of participants change their plans after ticking the dinner option. However, once the booking is made we will have to pay for the agreed number of participants, regardless of how many actually show up. To ease the task of the organizers, we kindly ask you to review the choice you have made and, if necessary, update it by this evening at latest.

Yours Sincerely,

Pietro Slavich (for the Organizers)

Further confirmation asked at the beginning of the workshop

Yet, three registered participants did not show up...
