

Swiss contribution to LISA data processing

vendredi 21 avril 2017 09:50 (25 minutes)

We present our plan for the swiss contribution to the data processing for LISA. We propose to join the expertise of the University of Zurich, the ETH Zurich and the University of Geneva. The University of Zurich and the ETH Zurich are involved in LISA and LISA Pathfinder hardware manufacturing and in the data processing for LISA Pathfinder. The University of Geneva has a long-lasting experience in the management of a data center for astrophysical research.

Auteurs principaux: Dr FERRAIOLI, Luigi (ETH Zurich); Dr PALTANI, Stephane (University of Geneva)

Orateurs: Dr FERRAIOLI, Luigi (ETH Zurich); Dr PALTANI, Stephane (University of Geneva)

Classification de Session: Call for contribution
