

# The 14th International Workshop Dark Side Of the Universe

## lundi 25 juin 2018

### Dark matter direct detection phenomenology - Auditorium (11:10 - 13:00)

-Présidents de session: Paolo Gondolo

time	[id] title	presenter
11:10	[60] Effective theories for direct detection	KAVANAGH, Bradley
11:50	[61] Impact of simulation results for DM searches	BOZORGNIA, Nassim
12:30	[12] Self-consistent description of the dark matter velocity distribution: from galactic dynamics to phenomenology	Dr LACROIX, Thomas
