

Rencontres de Moriond EW 2007

samedi 10 mars 2007 - samedi 17 mars 2007

La Thuile

Scientific Program Overview

The purpose of the Rencontres de Moriond is to discuss recent findings and new ideas in fundamental interactions in a pleasant, relaxed and intimate atmosphere. The meeting is intended to promote fruitful collaboration between experimentalists and theorists and between various institutions, by bringing together a limited number of particle physicists in beautiful and inspiring surroundings.

The topics which will be discussed include:

Precision tests of the Standard Model

Theories beyond the Standard Model

New particle searches

Dark matter and Dark energy

Neutrino physics

CP Violation in B and K decays
