Parallel session : Direct Searches 2 - Amphithéâtre Dumontet (10:20 AM - 12:40 PM)

time	[id] title	presenter
10:20	[A0] Effects of Residue Background Events in Direct Detection Experiments on Determining Properties of Halo Dark Matter	Dr SHAN, Chung-Lin
10:40	[A1] Status of Nuclear Emulsion for Directional Dark Matter Search	Mr NAKA, Tatsuhiro
11:00	[A4] Directional direct non-baryonic dark matter detection with MIMAC	Dr SANTOS, Daniel
11:20	[A5] DMTPC: a dark matter detector with directional sensitivity	Dr BATTAT, James
11:40	[A11] Spin-Dependent Limits from DRIFT	Dr SNOWDEN-IFFT, Daniel
11:55	[A13] Background Rejection in DRIFT	Mr MILLER, Eric
12:15	[A10] Towards a Massive Directional WIMP Detector	Prof. SPOONER, Neil
