

## Session Program

11-15 juin 2018

## LSST@Europe3 - Building Science Collaborations

### ***Session 6: LSST Science: Active Galactic Nuclei/ Strong Lensing***

MILC (Maison Internationale des Langues et des Cultures), Amphitheater  
35 Rue Raulin, 69007 Lyon, France

mar. 12 juin

11:00

**Session 6: LSST Science: Active Galactic Nuclei/ Strong Lensing**

Session | Site: MILC (Maison Internationale des Langues et des Cultures), Amphitheater, 35 Rue Raulin, 69007 Lyon, France |

Convener: Dominique Boutigny

**11:00 - 11:30 Probing the epoch of reionization with high redshift quasars from LSST****Orateur**

Richard McMahon

**Site****11:30 - 12:00 Strongly lensed AGNs and SNe with LSST****Orateur**

Sherry Suyu

**Site****12:00 - 12:15 Preparing the UK AGN community for LSST****Orateur**

Triana Almeyda

**Site****12:15 - 12:30****Automatic classification of sources in large astronomical catalogues - how LSST will gain from experience gathered on the largest datasets available today****Orateur**

Agnieszka Pollo

**Site**

12:30
