#### G600168

G601323

"Wow, i love it! Octopus of starburst." "much formation of new stars, but what are the bright objects in the top left?"

### G601323

"#three tight arms spiral#barred#ring#split nucleus surrounded by a halo of different color and intensity #symetry on direction of "balls""

### G536538

"This is weird! There is a dust lane with a hint of blue to the lower left section, and the possibility of a lensing arc at 6 o'clock."
