

IRN Terascale@Marseille

vendredi 15 décembre 2017

Dark Universe: Dark Universe I - Amphitheatre (09:00 - 10:45)

-Présidents de session: Emmanuel Moulin; Marco CIRELLI

time	[id] title	presenter
09:00	[21] Indirect search for Dark Matter with the ANTARES neutrino telescope	BERTIN, Vincent
09:40	[20] Precision computations of DM relic density	HARZ, Julia
10:20	[22] What do Galactic electrons and positrons tell us about dark matter?	BOUDAUD, Mathieu

Dark Universe: Dark Universe II - Amphitheatre (11:15 - 12:00)

-Présidents de session: Emmanuel Moulin; Marco CIRELLI

time	[id] title	presenter
11:15	[23] Cosmological simulations of spiral galaxies : dark matter detection aspects	NUNEZ, arturo
11:40	[24] Dark matter coupled to light scalars: the role of bound states	ONCALA MESA, Ruben
