

FKPPL Workshop

mercredi 25 février 2009 - vendredi 27 février 2009

CC-IN2P3

Programme Scientifique

FKPPL is an International Associated Laboratory which provides a framework to develop collaborations between Korean and French laboratories in the fields of particle physics and e-science. Its goal is to strengthen the existing initiatives and to steer-up new opportunities.

The goal of the workshop is to review the current activities going on within FKPPL. The meeting will also be the opportunity to explore new areas of collaboration for the future.
