Computing CMS

lundi 18 mai 2009 11:45 (25 minutes)

Ian Fisk will represent CMS computing organisation. His talk will be devoted to current data operations, plans for STEP09 exercise which will stress once more WLCG infrastructure before LHC data taking starts and which will include analysis activities at scale at T2's. It is an opportunity to pass important messages to french sites supporting CMS.

Orateur: FISK, Ian (FNAL)

Classification de Session: Computing LHC
