

7th International Workshop on Ring Imaging Cherenkov detectors (RICH 2010)

lundi 3 mai 2010

Cherenkov detectors in astroparticle physics: (1) (15:00 - 16:00)

time	[id] title	presenter
15:00	[64] Astrophysics with the H.E.S.S. Cherenkov Telescopes	Dr HOFVERBERG, Petter
15:30	[83] The ANTARES Deep-Sea Neutrino Telescope: Operation and Calibration	Dr COSTANTINI, Heide

Cherenkov detectors in astroparticle physics: (1) (16:30 - 18:30)

time	[id] title	presenter
16:30	[82] Gigaton Volume Detector in Lake Baikal	Dr AYNUTDINOV, Vladimir
17:00	[48] The Major Atmospheric Gamma Ray Imaging Cherenkov Telescope	Dr GARCZARCZYK, Markus
17:30	[76] The AMS-02 RICH detector: performance during ground-based data taking at CERN	M. PEREIRA, Rui

mardi 4 mai 2010

Cherenkov detectors in astroparticle physics: (2) (09:00 - 10:15)

time	[id] title	presenter
09:00	[59] A new 1 km**2 EAS Cherenkov Array in the Tunka Valley	Dr LUBSANDORZHIEV, Bayarto
09:25	[88] The Cerenkov Telescope Array	Dr GLICENSTEIN, Jean-Francois
09:50	[2] The KM3NeT neutrino telescope	Prof. KATZ, Ulrich

Cherenkov detectors in astroparticle physics: (2) (11:00 - 11:25)

time	[id] title	presenter
11:00	[86] Results of the prototype camera for FACT	M. KRÄHENBÜHL, Thomas
