

Workshop on singly and doubly charmed baryons

Tuesday 26 June 2018

Singly Charmed Baryons I - Salle des Séminaires (1222-RC/SB-08) (14:00-18:00)

time	[id] title	presenter
14:00	[8] Recent Belle results on singly charmed baryon and Belle II prospect of baryons (20'+10')	C.-P. SHEN
14:30	[9] Lifetimes of charmed hadrons within the heavy-quark expansion (20'+10')	T. RAUH
15:00	[10] CP violation in charmed baryon : theory (20'+10')	F.-S. YU
15:30	Coffee break	
16:00	[11] CP violation with charmed baryons at LHCb (20'+10')	A. PEARCE
16:30	[12] Unified description of heavy baryons in the covariant confined quark model (20'+10')	V. LYUBOVISKII
17:00	[13] Measuring the MDM of charmed Baryons with bent crystal (15'+10')	O., Fomin
