

# Workshop on singly and doubly charmed baryons

## Wednesday 27 June 2018

### Doubly Charmed Baryon II - Salle des Séminaires (1222-RC/SB-08) (09:00-13:15)

time	[id] title	presenter
09:25	[14] Phenomenological analysis of singly and doubly charmed baryon lifetimes (20'+10')	H.-Y. CHENG
09:55	[15] The Impact of Intrinsic Heavy-Quark Hadroproduction (20'+10')	S. BRODSKY
10:25	[20] Double heavy tetraquarks in lattice QCD (15'+10')	P. BICUDO
10:50	Coffee break	
11:20	[16] Weak decays of doubly charmed baryons — discovery potentials (20'+10')	F.-S. YU
11:50	[18] Prospect of LHCb for singly and doubly charmed Baryons (15'+10')	HE, Jibo
12:15	[17] Lambda_c production in pPb and PbPb collisions - ALICE (15'+10')	MENNINO, Elisa
12:40	[21] Summary
