

Present and future of the GET system at NSCL/FRIB

Wednesday, 10 October 2018 09:50 (50)

In this talk I will present recent results obtained with the Active Target Time Projection Chamber (AT-TPC) at the NSCL, and discuss the performance and functionalities of the GET electronics. I will also discuss future plans for using the GET system with other detectors and devices at the NSCL/FRIB laboratory.
