

LISA Astrophysics Working Group Workshop

jeudi 13 décembre 2018

Massive black hole binaries - dynamics (11:10 - 12:50)

time	[id] title	presenter
11:10	[27] MBH triplets as LISA sources	MATTEO BONETTI
11:25	[28] Post-Newtonian dynamical modelling of supermassive black holes in global large-scale simulations: First applications of the KETJU code	PETER JOHANSSON
11:40	[29] Formation of LISA Black Hole Binaries in Merging Dwarf Galaxies: the Imprint of Dark Matter	TOMAS TAMFAL
11:55	[30] Massive black hole binaries in circumnuclear discs	ALESSANDRO LUPI
12:10	[31] Discussion
