

LISA Astrophysics Working Group Workshop

vendredi 14 décembre 2018

EM counterparts (09:30 - 10:30)

time	[id] title	presenter
09:30	[39] The electromagnetic chirp of a supermassive black hole binary	ZOLTAN HAIMAN
09:45	[40] Multimessenger observations of Massive black hole binaries	ALBERTO SESANA
10:00	[41] Spectroscopic Signatures of Subparsec Binary Supermassive Black Holes	TAMARA BOGDANOVIC
10:15	[42] Accretion discs around supermassive black hole binaries: non-steady long-term evolution and second decoupling	CAMILO FONTECILLA

EM counterparts (11:00 - 12:25)

time	[id] title	presenter
11:00	[45] Lighting Up Magnetized Mini-Disk Simulations about Binary Black Holes	SCOTT NOBLE
11:15	[44] Multimessenger Double White Dwarf binaries in the Local Universe	ELENA MARIA ROSSI
11:30	[43] The LISA Science Group Multimessenger-Multiband Team	JOHN BAKER
11:45	[46] Discussion
