

Valentina Ros

IPhT --group C

My research experience:

- Post Doc at IPhT since Nov 2016
- Until 2016: Ph.D. in Statistical Physics at SISSA in Trieste, Italy.

My research interests:

Non-equilibrium dynamics & dynamical transitions in disordered systems

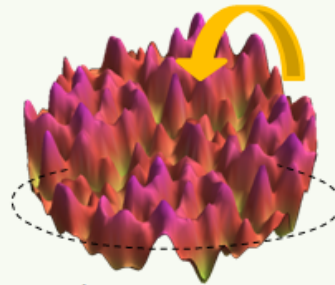

Quantum localization.

fast-decaying
amplitudes

real space

rugged
landscape

configuration space

Classical glassiness.

The people I work with:

Giulio Biroli - IPhT Saclay and ENS Paris
Markus Mueller - PSI Institute Villigen
Antonello Scardicchio - ICTP Trieste
Francesca Pietracaprina - LPT Toulouse
Vladimir Kravtsov - ICTP Trieste
Chiara Cammarota - KCL London
John Imbrie - UV Virginia
Gerard Ben Arous - NYU New York
Rahul Nandkishore - UCB Boulder
David Huse - PCTS Princeton

Useful information for IPhT postdocs

This page collects useful information for [postdocs](#) working at the [IPhT](#), and is entirely in English.

- ◊ [Useful information for IPhT postdocs](#)
- ◊ [Settling in France](#)
- ◊ [The lab](#)
- ◊ [Daily life](#)

Settling in France

Before you arrive

- [Visas](#)

When you arrive

- [Helpful organisations](#)
- [Accommodation](#)
- [Insurance](#)
- [Banks](#)
- [Health insurance](#)
- [Mobile phones](#)

During your stay

- [Taxes](#)
- [Retirement schemes](#)
- [State benefits](#)

The lab

- [General Information](#)
- [Laboratory council](#)
- [Benefits](#)
- [Confidential support](#)

Daily life

- [Transportation](#)
- [Learning French](#)
- [Recreational activities](#)

**New wiki page with info!
(thanks to Corentin Morice)**

**→ everyone can modify (via IPhT login)
→ missing: doctors who speak English, banks.**

There are currently no sections on Driving nor Safety for instance, but please feel free to add some.
