Subject: Compactification of String Theory and (non)-geometry

With Mariana Graña

(Also Representative of the PhD Students at the Lab Council)

Corentin Morice made an amazing Wiki page to help newcomers settle in France (for now only available on the intranet):

## Settling in France

### Before you arrive

- Visas

### When you arrive

- Helpful organisations
- Accommodation
- Insurance
- Banks
- Health insurance
- Mobile phones

### During your stay

- Taxes
- Retirement schemes
- State benefits

### The lab

- General Information
- Laboratory council
- Benefits
- Confidential support

### Daily life

- Transportation
- Learning French
- Recreational activities

This can obviously be useful for PhD students and I am thinking about adding a part concerning the registration to the University. Every idea is welcomed!
