

Third Workshop on Gas-Filled Detectors and Systems (GDS) ENSAR2 - WP6

Second Circular

The third topical Workshop on Gaseous Detectors and Systems (GDS) will be held in IPN Orsay (France) from the 23rd to the 25th of January 2019. Further information, registration and abstract submission on the web page of the event: <https://indico.in2p3.fr/event/18026>

The following topics will be covered:

- Gas detections systems: ongoing and forthcoming projects
- Physics opportunities with rare/expensive gases: reactions on $^3,4\text{He}$, etc.
- Existing $^3,4\text{He}$ targets: gas jet, active target, cryogenic, etc.
- New gas mixtures
- Circulating systems
- Integration issues
- Simulations and Electronics

Practical Details

The workshop will start on Wednesday 23rd at 14h00 and finish on Friday 25th January 2019 at 15h00. Registration desk will be open from 13h00 to 14h00 on the 23rd. There is no registration fee. The social dinner and lunch boxes are offered upon registration.
