

# Rare semileptonic B Decays: Theory and Experiment (bsll2019)

## vendredi 6 septembre 2019

### New observables / new ideas - Amphi Dirac (09:00 - 10:30)

-Présidents de session: Carla MARIN BENITO; Olcyr Sumensari

time	[id] title	presenter
09:30	[50] How to further exploit meson decays?	LANGENBRUCH, Christoph
10:00	[52] Angular distributions of rare baryon decays	NOVOA BRUNET, Martín

### New observables / new ideas - Amphi Dirac (11:00 - 13:00)

-Présidents de session: Carla MARIN BENITO; Olcyr Sumensari

time	[id] title	presenter
11:00	[53] Experimental prospects on baryons	BLAKE, Thomas
11:30	[54] Hunting tau-loops in $B \rightarrow K\mu\mu$	KÖNIG, Matthias
12:00	[55] Prospects with tau's at LHCb and Belle-II	SERRANO, justine
12:30	[56] Open discussion	MARIN BENITO, Carla SUMENSARI, Olcyr
