

# 10th International Conference on High Level Environmental Radiation Areas (ICHLERA 2022)

## mercredi 29 juin 2022

### Radon, Thoron & Decay Products Measurements: Radon, Thoron & Decay Products Measurements (09:00 - 10:30)

-Présidents de session: Peter BOSSEW

time	[id] title	presenter
09:00	[80] Up-to-date dose conversion factors for radon isotopes and their historical overview	Prof. TOKONAMI, Shinji
09:30	[98] On the use of numerical models to predict/mitigate indoor radon levels in highly contaminated areas	Prof. FONT GUITERAS, Lluís
10:00	[58] Proposal of an affordable method to estimate indoor thoron concentration close to the walls using active radon monitors	Dr DI CARLO, Christian
10:15	[55] Some Applications of Novel Polycarbonate/ACF Radon Detectors for Personal and Environmental Monitoring	Prof. SOHRABI, Mehdi
