

10th International Conference on High Level Environmental Radiation Areas (ICHLERA 2022)

jeudi 30 juin 2022

Radiobiological Effects, Epidemiology & Health Impacts: Radiobiological Effects, Epidemiology & Health Impacts (09:00 - 10:30)

-Présidents de session: LLuis FONT GUITERA

time	[id] title	presenter
09:00	[122] Towards the characterization of single-cell molecular response to ionizing radiation	BEAUDIER, Pierre
09:15	[115] Maternal and paternal exposure to low dose radiation and adverse birth outcomes: preliminary findings from a systematic review and meta-analysis	FRANGIONE, Brianna
09:30	[143] Low dose rate radiation exposure effects among medical workers from the knowledge of epidemiologic studies.	Dr IDLIL , Maroua
09:45	[120] Ionising radiation exposure of Medical staff: risks and prevention	EL HASSANE, Cyrine
10:00	[132] Radiolysis of concentrated myoglobin by accelerated ions	Dr RAFFY, Quentin
10:15	[133] Effects of the dose-rate on the radiolysis of water and small protein biomolecules	DANVIN, Antoine
