

# Advances in Radioactive Isotope Science

## mercredi 7 juin 2023

### plenary 11 - Conclave (14:30 - 16:10)

-Présidents de session: Paul Fallon

time	[id] title	presenter
14:30	[294] High-resolution gamma-ray spectroscopy at a neutron beam: news from ILL	Dr MICHELAGNOLI, Caterina
14:55	[313] High-resolution in-beam $\gamma$ -ray spectroscopy at RIBF	MOON, Byul
15:20	[513] Super-allowed alpha decay to doubly-magic $^{100}\text{Sn}$	SEWERYNIAK, Dariusz
15:45	[653] Studies of exotic isotopes using laser ionization techniques and trapped ion techniques	Prof. DE GROOTE, Ruben
