

Journées FCC-France: Introduction and goals

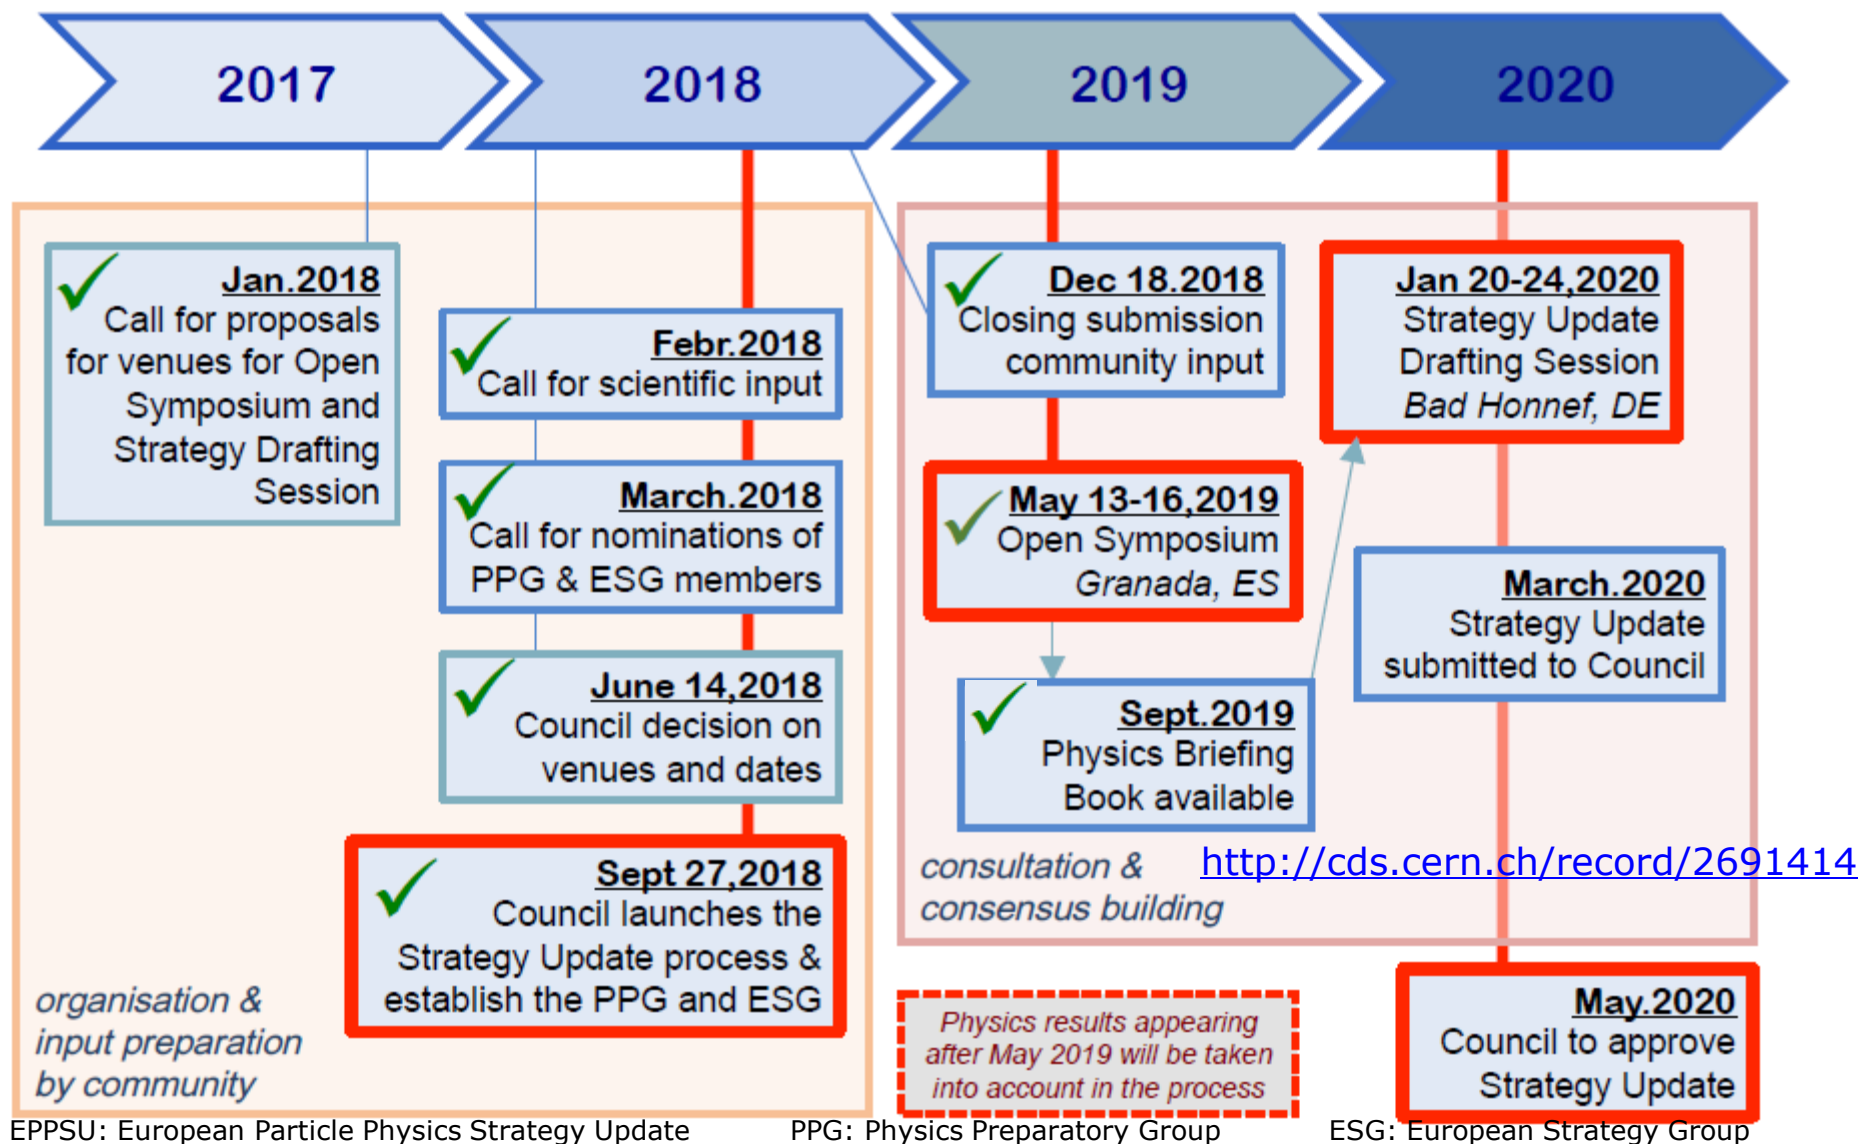

Jean-Luc Biarrotte (IN2P3)
Gautier Hamel de Monchenault (CEA)
Laurent Vacavant (IN2P3)
Pierre Védrine (CEA)

Goals of these Journées FCC-France

Information & exchange forum on the project for the French community

- Assess the state of the art for the project in terms of:
 - Physics potential
 - R&D and challenges:
 - accelerator(s)
 - detectors
 - computing, software, etc
- Gauge the interest of the community
- Discuss the various physics and technical interests in France, building also on previous work and investments
- Foster nation-wide collaboration and synergy
- Feed the current european and national strategy updates
- Initiate/discuss organizational aspects at the French/institutes level

EPPSU 2020 Timeline

- Many thanks to:
 - our FCC guests today !
 - the organizing committee
 - the local organizers for hosting us
 - you for attending
- Apologies for the non-optimal choice of the dates (conflict with ECFA)
- Let's move to the scientific part now !
